

Report: Survey Results

Dear Instructor Bethea,

This email contains results for Calculus I:

The global indicators are listed first, followed by the individual average values, consisting of the following scales:

- INSTRUCTOR EVALUATION (Part I)
- INSTRUCTOR OVERALL
- STUDENT OUTCOME (PART II)
- COURSE EVALUATION (Part III)
- OVERALL COURSE EVALUATION (PART IV)
- MISCELLANEOUS INSTRUCTOR QUESTIONS

In the second part of the analysis the average values of all individual questions are listed.

Comments Report

7. COURSE EVALUATION (PART V)

7.3) Please comment on what you feel are the positive and negative aspects of your instructor and his/her teaching outlook:

respectful and was always there to answer questions.

Candice is very smart and understanding. She will stay afterclass to help if I do not understand something.

Great time management, enthusiastic, cares about our grades.

The instructor was great. Helpful, caring, calm.

Candace was very understanding, knowledgeable, and helpful. My main issues are with the professor.

Easy to understand and very kind. Cares about whether or not the material is understood.

Candace is a great TA. One of the reasons I am doing well in this class.

Candace is great! She makes an otherwise unbearable subject easy to understand! By far the best T.A. we ever had!

The instructor was concerned that students learn the material and was motivated to teach. He answered questions well.

7.4) Comment on what you feel are the positive and negative aspects of this course:

The course is hard but it's required going to help me get a degree so.

The course goes at a very good speed. I can learn and understand thoroughly before each test.

Difficult course, very fast paced, but prepares you for Calc 2

There were no positive aspects in my opinion

The workload was a little much considering all my other classes.

The lab day is useless. Why should I spend a whole 50 minutes in a lab learning a problem that is calculator-ified in a non-calculator course. This time would be better spent as another day of recitation.

If you have not taken a previous Calculus course, then it is very difficult to pass this class.
