## Get Lost! (a little game)

When telling troops or ships how to navigate to a given location is a lot different than how you would tell your friends to navigate downtown Columbia. In the following problems help your friends navigate the mathematical lands, finding the shortest paths from the origin to the designated points!

Problem 1. $\qquad$ ii. $\qquad$ iii. $\qquad$

Problem 2. i. $\qquad$ ii. $\qquad$ iii. $\qquad$

Problem 3. i. $\qquad$ ii. $\qquad$ iii. $\qquad$

Problem 4. i. $\qquad$ ii. $\qquad$ iii. $\qquad$

Problem 5. i. $\qquad$ ii. $\qquad$ iii. $\qquad$

Problem 6. i. $\qquad$ ii. $\qquad$ iii. $\qquad$

Problem 7. i. $\qquad$ ii. $\qquad$ iii. $\qquad$

Problem 8. i. $\qquad$ ii. $\qquad$ iii. $\qquad$
