7.3) Please comment on what you feel are the positive and negative aspects of your instructor and his/her teaching outlook:

The TA and the lecturer, Ronda, are not in an understanding to each other. When going to recitation, the TA solves the problems in a certain way while Ronda wants another. Therefore, our marks get deducted. ^{tells us to}

Thanks.

N/A

Positive was this class was very clear and easy to follow

Negative was this class is pointless for Math 142.

Good T.A

no negative; very helpful and knows his information

straight forward but shows confusing examples.

Very organized, very fair with grading and homework expectations. No negatives

Very Funny and interesting good Instructor and always answers questions when asked

MR. GRICE IS AWESOME!!!!

7.4) Comment on what you feel are the positive and negative aspects of this course:

Thanks.

\sqrt{n}

not very helpful with calculus, but
good grade booster

Very hard course, takes a lot to master.

Very challenging

A lot of useful information but fairly difficult.

I like the maple lab but sometimes the tasks don't really teach us anything, just plugging in equations into the maple program. Don't understand why it is necessary even though it is an easy A.
