Comments Report

7. COURSE EVALUATION (PART V)

7.3) Please comment on what you feel are the positive and negative aspects of your instructor and his/her teaching outlook:

The only math teacher I've had that has made me look forward to taking a math class for 75 min at the end of a Monday, would take any of his other classes in a heart beat. He was clearly : funny : always had a movie reference or song lyric which made class very enjoyable

Neg: Don't use colors like red on the board, students in the back can't see the work on the board.

Everything except some quizzes I felt like the problems were over harder material than what we learned

He provides homeworks that help us better understand the material for quizzes and tests which is helpful.

Positive

the instructor was well educated and made learning fun / interesting.

Positive: knows material very well
 good at communicating material to students
 funny

Negative: n/a

I've never been good at math but Josh is awesome extremely caring guy and always helpful.

I really feel he cares if the students learn the material and is entertaining to grab people's attention

I like that he gives partial credit on tests. The keys are a great way to see what I did wrong & helped me correct myself.

the posting of all HW answers & test / quiz answers on Blackboard was very helpful throughout the semester

Very good at teaching & knowledgeable about the subject

Funny, lighten class mood. got to work when needed

He made learning fun and always explained clearly.

He has good knowledge of the material and almost always knows the answers to students' questions

positive, makes class fun, doesn't take shortcuts in teaching

Teacher was funny and good at teaching. Sometimes moved to fast.

Josh Grice is an awesome guy. Fun class. I
just struggle to pay attention late in the day -
no fault of his own. Class was hard for me,
but he is willing to help

N/A

Professor knows what he's talking about. He can always answer my questions when I don't understand.

It doesn't count as the math credit that I need.

good scheduling for class.

The course covered a wide range of material

Will help in future math classes

Basic math is good

Course helped me to better understand mathematics.
