

Report: Survey Results

Dear Instructor Grice,

This email contains results for Vector Calculus:

The global indicators are listed first, followed by the individual average values, consisting of the following scales:

- INSTRUCTOR EVALUATION (Part I)
- INSTRUCTOR OVERALL
- STUDENT OUTCOME (PART II)
- COURSE EVALUATION (Part III)
- OVERALL COURSE EVALUATION (PART IV)
- MISCELLANEOUS INSTRUCTOR QUESTIONS

In the second part of the analysis the average values of all individual questions are listed.

Comments Report

7. COURSE EVALUATION (PART V)

7.3) Please comment on what you feel are the positive and negative aspects of your instructor and his/her teaching outlook:

He provides homework and solutions to us
grade fairly
like him. funny and know what he is teaching.

You were a very cool teacher.

—Morcy

I enjoyed his teaching style and appreciated the homework was not too strenuous. He keep the classroom atmosphere fun and interactive.

Nice, wants you to understand material. Sometimes feel rushed.

I like him. Talks about smash bros alot.

Great teacher!

Shave your head for the bald/beard look.

— Amazing lecturer

The instructor ~~was~~ makes the topic interesting to learn and ensures that the students learn the material.

Great Prof, cares about students

The instructor really cares about the students learning and understanding of the subject and was conducive to my growth as a person.

Geat Guy

The positive aspect of the teacher was he corrected you on quizzes and tests and showed what you did wrong on every test. Overall, I would recommend this instructor for future students.

Made topics understandable in ~~crutch-english~~ math.
Class was enjoyable and looked forward to going to it everyday.

He was a friendly and interactive instructor, that brought and conveyed points with ease. Able to engage students and make them feel like students to have a good time with learning.

He was very driven to make sure that students understand the content. Moves at a very good pace and is approachable. Creates a very positive learning environment.

Horcy loves the professor's teaching attitude/style. He engaged with the class & was up to date with meme culture. All the while still being an effective good ass professor.

he treats us like real people
allows class to be fun and educational
cares we learn and helps it when

Great teacher, fun guy, but at times I think rapport w/ the class and jokes took
priority over learning

Lectures were engaging and informative.

Very concise and straightforward teaching and examples.
Answers questions well

Probably the best Math professor I've ever had. He made vector
possible and actually easy to do.

Makes me want to learn. He keeps students engaged
while also teaching. Classes are fun and not stressful.
We need more professors like him. British accents
pretty cool too.

The guy is a great teacher and is motivated to see his students pass. Also he's British, which is pretty cool

Continue beinging you. you help things be less dreary.

- Keep character voices
- Keep herby tangents
- Keep herby if possible
- See if you can spark the class into useless conversation

7.4) Comment on what you feel are the positive and negative aspects of this course:

Good overall

It needs a calculator.

-Morcy

My favorite math class I've ever taken.

Gives a good amount of examples.

Course was fair.

This course was required but was not too hard or too easy because the prereqs were adequate

The positive aspects of the course was he explained information really well and the homework and quizzes helped me succeed in this class

I spent a lot of time outside of class practicing and other classes suffered from it.

Positive: I liked the course

Negative: had to do a lot of work

You only get out what you put in. Course material isn't hard as long as you practice

I love how the teacher treated us like fellow adults. I really have no complaints I'm gonna miss him as a professor & so will Horcy.

creates a fun atmosphere for learning complex topics.

Great homeworks with great solutions

I thought we were supposed to learn a few more things

Can be very independent, and I am bad at independent learning. No fault but my own

The course translates to many science related fields

Solid course.

The course was fine
