

Practice Problems 8 - Math 141, Frank Thorne (thornef@mailbox.sc.edu)

Any of these problems that might appear on a quiz, assessment, or the final exam. You will be expected to show your work, write in complete sentences, and explain your reasoning clearly.

Important. When doing optimization problems you are **required to draw and label a suitable picture** when appropriate to the problem.

- (a) Thomas, 4.6, 1-59.
- (b) Thomas, 4.8, 1-109.
